ZAMBIA INFORMATION AND COMMUNICATIONS TECHNOLOGY AUTHORITY

REPLANNING OF THE NATIONAL FM SOUND BROADCASTING BAND: 87.5 -108 MHZ

In order to address the current growth of the FM Sound broadcasting ICT sub-sector and to support and sustain its future growth, the Zambia Information and Communications Technology Authority (ZICTA) commenced the National FM Sound Broadcasting Radio Frequency Spectrum Re-planning. This is in accordance with the ICT Act of 2009.

The new plan is intended to increase the FM capacity especially in the metropolitan areas of Zambia.

To this effect, ZICTA wishes to inform the stakeholders and general public that the Authority has completed the planning and frequency re-assignments phase of the exercise. Furthermore, the Authority has set April 30th, 2017 as migration deadline onto the new frequencies for **ALL FM** radio stations that require changing in the new plan. Below are the names of the stations with their corresponding new frequencies.
